

# Enviva Creates Jobs and Strengthens Communities in Florida

Founded in 2004, Enviva is a leading global energy company specializing in sustainable wood bioenergy. We are the world's largest producer of wood pellets, a renewable and sustainable energy source used to generate electricity and heat.

Enviva's existing and possible expanded production plants and terminal in Florida are expected to support nearly **450 direct and indirect jobs**.

Enviva's historical investments in Florida exceed **\$100 million**, and Enviva's operating costs in 2018 were **over \$80 million**.

Enviva contributes to several **Florida community programs and events**, including the Children's Miracle Network, local high school Future Farmers of America events, hurricane recovery efforts, and local little league baseball.

We **provide landowners with a key market** for their low-grade wood—including "thinnings," limbs, tops, or crooked and knotted trees that would otherwise not get used for lumber or other higher value products.

## ENVIVA POWERS ECONOMIC GROWTH AND INVESTMENT

Enviva's Cottondale operations currently support approximately 350 direct and indirect jobs. Enviva is considering an expansion in Florida of both the plant and port.

If the expansion is completed, it is expected to:

- Support an increase of 20-30 full-time employees.
- Create and support approximately 75 additional indirect jobs including logging, transportation, and local services.
- Represent an additional \$80 million in capital investment and create over 300 temporary construction jobs.

## ENVIVA REDUCES DEPENDENCE ON FOSSIL FUELS

Biomass is part of an all-in strategy to reduce carbon emissions and limit dependence on fossil fuels. As an alternative to coal, wood pellets help heat generators and power producers reduce their carbon footprint up to 85 percent on a lifecycle basis, often without undergoing major renovations to their existing structures.

## ENVIVA CONNECTS LOCAL COMMUNITIES TO INTERNATIONAL TRADE

-  Cottondale (current production plant)  
Direct Employees: 100 | Indirect Jobs: 250
-  Port of Panama City (terminal)  
Direct Employees: 3 | Indirect Jobs: 25

(Job numbers are estimated.)
