

Enviva Creates Jobs and Strengthens Communities in South Carolina

Founded in 2004, Enviva is a leading global energy company specializing in sustainable wood bioenergy. We are the world's largest producer of wood pellets, a renewable and sustainable energy source used to generate electricity and heat.

enviva

Enviva has invested more than **\$135 million in South Carolina** and supports nearly **250 direct and indirect jobs**.

Enviva estimates that it has created a total economic impact of **approximately \$115 million** in the region.

Enviva contributes to several **South Carolina community programs and events**, including the Greenwood Alliance Partnership, the Greenwood Chamber of Commerce, Special Olympics, the Woodland Clinic, and American Tree Farm programs throughout the state.

Enviva sources wood from more than 1,000 private landowners. We provide an additional market for their low-grade wood—increasing the profitability of timber harvest activities and creating an incentive to keep forests as forests.

ENVIVA POWERS ECONOMIC GROWTH AND INVESTMENT

Enviva's South Carolina operations at its Greenwood plant support 80 employees and more than 160 indirect jobs. Independent economic analysis indicates that for every one job created at an Enviva facility, more than two additional domestic jobs are created in the community.

ENVIVA IS AN INTEGRAL PART OF THE FOREST LANDSCAPE

At the U.S. Army's base at Fort Jackson, foresters are restoring 10,000 acres of upland loblolly and longleaf stands to improve their habitat value for critical species. Enviva purchases wood chips from the stands as fuel, supporting this important restoration work.

ENVIVA REDUCES DEPENDENCE ON FOSSIL FUELS

Biomass is part of an all-in strategy to reduce carbon emissions and limit dependence on fossil fuels. As an alternative to coal, wood pellets help heat generators and power producers reduce their carbon footprint up to 85 percent on a lifecycle basis, often without undergoing major renovations to their existing structures.

ENVIVA CONNECTS LOCAL COMMUNITIES TO INTERNATIONAL TRADE

Greenwood (current production plant)
Direct Employees: 80 | Indirect Jobs: 160

(Jobs numbers are estimated.)
